26TH PLENARY MEETING OF CEN/TC 226

6.3 Norwegian request to disband CEN/TC 50 and to move the work to CEN/TC 226, N 1465

The Norwegian Mirror Committee requests to move CEN/TC 50 work under CEN/TC 226. CEN/TC 50 activity is already linked to CEN/TC 226/WG 10 and that many experts of CEN/TC 50 are already involved into CEN/TC 226/WG 3 working group.

A merge of these two committees will give the following benefits:

- simplify the standardization process for EN40 and EN12899 as they are handled in one TC;**
- increase the interest of experts and the participation on the working groups by lowering the travelling costs and number of meetings;**
- reduce inter-committees collaborations making all process more efficient;**
- lower the cost for the producers when it comes to conformity and testing and in that way take into account small and medium size enterprises (SME) which is focused in CEN in general (see CEN/CENELEC Guide 17:2010).**
